Subject: RE: question on Arkwood CIP

If memory serves me correctly, Shawn Ghoose was the RPM. Shawn did his own CIC work, so, CIC information would have been with him. The CIC Team will have to start from whatever we can find.

However, I believe Zana had been able to find some old CIC work that had been done. We had prepared a file at the last minute when we were invited to the meeting with Mr. Grisham for Carlos.

I am assigning Donn Walters to help with this. Donn, please get Zana to help you on the history. See if we can find the file of community involvement that Zana had prepped. That will probably be our only history. I may have give the file to Carlos or Steve....but I'm not sure. Zana will probably have originals.

Subject: question on Arkwood CIP

Hi Joy, Donn,

Curt's asking about community involvement on the site. I checked the notes from the meeting (attached) and it does say:

<page 3> Curt Grisham stated that this topic was self-explanatory and that everyone should read it. Carlos Sanchez explained that the EPA wants to be held to these standards and that transparency is critical to the EPA. Donn Walters stated that he had worked on the community involvement plan for the site, and that the original plan was in the repository for the site. Joy Campbell stated that fact sheets and history related to community involvement would be shared and that, in consultation with Stephen Tzhone, the community involvement plan for the site would be updated. Carlos Sanchez stated that preliminary close out report had been completed, but the remedy at the site is on-going and not complete.

Who is the CIC point of contact to work on updating the CIP?

9645841

Stephen

Subject: RE: Extension Request - Responsiveness Summary for September 5, 2013 Meeting in Dallas

Mr. Grisham:

The Region has resumed work after the extensive federal shutdown which ended yesterday. Please find attached the summary notes to the agenda items for the September 5, 2013 meeting in Dallas with you that included personnel from EPA Region 6, EPA Headquarters and ADEQ.

Please see that your agenda remains in black font and the federal and state government summary notes are provided in red-brown font. As I have indicated to you, these summary notes represent the collaborative notes of the meeting of the federal and state attendees.

We sincerely appreciate your continued cooperation.

Thank you,

Gloria Moran
